JOURNALISM AND  
MEDIA PRODUCTION

**Whether it's reporting the news or producing a new show, practice is just as important as theory.**

That's why Cameron University's Journalism and Media Production program gives students a hands-on look at the role media plays in our society. From the fully equipped radio labs, newsroom, and television studio, to the fully-equipped radio station, television network, and newspaper *Cameron Collegian*, the JRMP program provides a wide range of experience.
